IMPORTANT SAFETY NOTICE

This exercise equipment is built for optimum safety. However, certain precautions apply whenever you operate a piece of exercise equipment. Be sure to read the entire manual before you assemble or operate your equipment. In particular, note the following safety precautions:

1. **Keep children and pets away from the equipment at all times. DO NOT Leave children unattended in the same room with the equipment.**
2. Only one person at a time should use the equipment.
3. If the user experiences dizziness, nausea, chest pain, or any other abnormal symptoms, STOP the workout at once. CONSULT A PHYSICIAN IMMEDIATELY.
4. Position the equipment on a clear, leveled surface. DO NOT use the equipment near water or outdoors.
5. Always wear appropriate workout clothing when exercising. DO NOT wear robes or other clothing that could become caught in the equipment. Running or aerobic shoes are also required when using the equipment.
6. Use the equipment only for its intended use as described in this manual. DO NOT use attachments not recommended by the manufacturer.
7. Do not place any sharp object around the equipment.
8. Disabled person should not use the equipment.
9. Before using the equipment to exercise, always do stretching exercises to properly warm up.
10. Never operate the equipment if the equipment is not functioning properly.
11. A spotter is recommended during exercise.
12. **This equipment is designed and intended for home and consumer use only, not for commercial use.**

**WARNING:** BEFORE BEGINNING ANY EXERCISE PROGRAM, CONSULT YOUR PHYSICIAN. THIS IS ESPECIALLY IMPORTANT FOR INDIVIDUALS OVER THE AGE OF 35 OR PERSONS WITH PRE-EXISTING HEALTH PROBLEMS. READ ALL INSTRUCTIONS BEFORE USING ANY FITNESS EQUIPMENT. IMPEX INC. ASSUMES NO RESPONSIBILITY FOR PERSONAL INJURY OR PROPERTY DAMAGE SUSTAINED BY OR THROUGH THE USE OF THIS PRODUCT.

SAVE THESE INSTRUCTIONS.
Building Muscle and Gaining Weight

Unlike aerobic exercise, which emphasizes endurance training, anaerobic exercise focuses on strength training. A gradual weight gain can occur while building the size and strength of muscles. While developing muscle mass, your body adapts to the stress placed upon it. You can modify your diet to include foods such as meat, fish and vegetables. These foods help muscles recover and replenish important nutrients after a strenuous workout.

Muscle Strength and Endurance

To achieve the greatest benefit from exercise, it is important to develop an exercise program that allows you to work all of the major muscle groups equally.

To increase muscles strength; follow this principle:
Increasing resistance and maintaining the number of repetitions of an exercise results in increased muscle strength.

To tone your body, follow the principle: Decreasing resistance plus increasing the number of repetitions of an exercise results in increased body tone.

Once you feel comfortable with an exercise, you can change the resistance, the number of repetitions, or the speed at which you do the exercise. It is not necessary to change all three variables. For example, let’s say that you are training at 50 lbs and performing the exercise 10 times in 3 minutes. When this becomes too easy, you may decide to move up lifting 60 lbs for the same number of repetitions in the same amount of time. Lifting more weights fewer times most often develops muscle strength. To gain both muscle strength and endurance, it is recommended that you perform each exercise 15 to 20 reps per set.

Training Intensity

How hard you begin to train depends on your overall level of fitness. The soreness you experienced can be lessened by decreasing the load you place on your muscles and by performing fewer sets. To avoid injury, you should gradually work into an exercise program and set the load to your individual fitness level. The load should increase as your fitness level increases.

Muscle soreness is common, especially when you first start exercising. If you are painfully sore for a long time, it may be time to change your program. Eventually, your muscle system will become accustomed to the stress and strain placed on it.
Beginning a Strength Building Program

Warming Up

To begin strength training, it is important to stretch and perform light exercise for 5 to 10 minutes. This helps prepare the body for more strenuous exercise by increasing circulation, raising your body temperature and developing more oxygen to your muscles.

Workout

For each workout, to keep in mind that muscle soreness that lasts for a long period in not desirable and may mean that injury has occurred.

Cool Down

At the end of each workout, perform slow stretching exercises for 5 to 10 minutes. Ease into each stretch only going as far as you can. This stage allows your muscles wind down after training.

To provide a total workout program it is also recommended that 2 to 3 days of aerobic exercise is performed in addition to the strength training.

Drinking Water

For the body to function properly, it must be properly hydrated. If you are exercising, you should increase your fluid intake. The reason for this is that the water you take in will leave your system through the sweating mechanism that cools your body during exercise. The water you lose through exercise must be replaced so that the muscles can recover properly.

Rest Day

Although you may not feel like doing it, taking a rest day at least once a week is important because it gives you body a chance to heal it self. Continuously working your muscle will result in over training which will not benefit in the long run.
## Important Assembly Information

- **Tools Required for Assembly:** Electrical Drill
- **NOTE:** It is highly recommended that this equipment is assembled by two or more people to avoid possible injury.
- Ensure all board edges are aligned when screwing boards together.
- Ensure to attach the correct Foam Sheet to correct Board.

## Care and Maintenance

1. Inspect and tighten all parts before using the equipment.
2. The Vinyl Cover can be cleaned using a damp cloth and mild non-abrasive detergent. DO NOT use solvents.
3. Examine the equipment regularly for signs of damages or wear.
4. Replace any defective components immediately and/or keep the equipment out of use until repair.
5. **Failure to examine regularly may affect the safety level of the equipment.**

## Weight Capacity and Dimension

1. Maximum weight capacity (including user weight) on Box: 250 lbs.
2. Box assembled dimension: 20" x 16" x 24".
3. Training Area: 6’ x 6’ x 10’ (L x W x H)

![Diagram of parts](image.png)
STEP-1

A.) Attach two Board-1s (part #1) to one Board-3 (part #3) from each side. Align the edges and secure them together with twelve Self-taping Screws (part #8).

B.) Attach Board-4 (part #4) onto the Board-3. Secure it to Board-3 with two Self-taping Screws from bottom of Board-3.

C.) Attach two Board-2s (part #2) to Board-3 and Board-1 from each side. Secure them together with twelve Self-taping Screws.
STEP-2

A.) Attach one Board-3 (part #3) onto Board-1, 2, and 4. Secure them together with eighteen Self-taping Screws (part #8).
STEP-3

A.) Peel off the adhesive coating from Foam Sheet-1 (part #5) and attach the two Foam Sheet-1s to the two Board-1s (part #1).
B.) Peel off the adhesive coating from Foam Sheet-2 (part #6) and attach the two Foam Sheet-2s to the two Board-2s (part #2).
C.) Peel off the adhesive coating from Foam Sheet-3 (part #7) and attach the two Foam Sheet-3s to the two Board-3s (part #3).
STEP-4

A.) Insert the Box into Box Vinyl Cover (part #9). Pull up until snug and close the cover with the zipper on cover.
LIMITED WARRANTY

IMPEX Inc. ("IMPEX®") warrants this product to be free from defects in workmanship and material, under normal use and service conditions, for a period of two years on the Frame from the date of purchase. This warranty extends only to the original purchaser. IMPEX's obligation under this Warranty is limited to replacing or repairing, at IMPEX's option.

All returns must be pre-authored by IMPEX. Pre-authorization may be obtained by calling IMPEX Customer Service Department at 1-800-999-8899. All freight on products returned to IMPEX must be prepaid by the customer. This warranty does not extend to any product or damage to a product caused by or attributable to freight damage, abuse, misuse, improper or abnormal usage or repairs not provided by an IMPEX authorized service center or for products used for commercial or rental purposes. No other warranty beyond that specifically set forth above is authorized by IMPEX.

IMPEX is not responsible or liable for indirect, special or consequential damages arising out of or in connection with the use or performance of the product or other damages with respect to any economic loss, loss of property, loss of revenues or profits, loss of enjoyment or use, costs of removal, installation or other consequential damages or whatsoever natures. Some states do not allow the exclusion or limitation of incidental or consequential damages. Accordingly, the above limitation may not apply to you.

The warranty extended hereunder is in lieu of any and all other warranties and any implied warranties of merchantability or fitness for a particular purpose is limited in its scope and duration to the terms set forth herein. Some states do not allow limitations on how long an implied warranty lasts. Accordingly, the above limitation may not apply to you.

This warranty gives you specific legal right. You may also have other rights which vary from state to state. Register on-line at www.marcypro.com

ORDERING REPLACEMENT PARTS

Replacement parts can be ordered by calling our Customer Service Department toll-free at 1-800-999-8899 during our regular business hours: Monday through Friday, 9 am until 5 pm Pacific standard time. support@impex-fitness.com

When ordering replacement parts, always give the following information.

1. Model
2. Description of Parts
3. Part Number
4. Date of Purchase
